PROFESSIONAL SUMMARY

Frontend developer focused on building responsive, user-friendly web applications with modern technologies. Strong eye for clean UI, seamless user experiences, and maintainable code. Continuously learning through real-world projects and applying best practices in every build.

SKILLS

Frontend: React, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Vite
Backend & Database: PHP, MySQL, PostgreSQL, Supabase
Languages: C++, Python
Tools: Git, GitHub, VS Code, Vercel, XAMPP, Notion

EDUCATION

BS Software Engineering

Capital University of Science & Technology — CGPA 3.95 / 4.00

Expected 2028

FSc Pre-Engineering

Punjab College

Matriculation

Capital Public School

SELECTED PROJECTS

Parima — Community Opportunities Platform

[React](#) · [TypeScript](#) · [Supabase](#) · [PostgreSQL](#)

Built a real-time platform connecting users with jobs, volunteering, and local events. Implemented role-based access control and private messaging system.

[GitHub](#) [Demo](#)

SMAR's Perfume Store — Luxury E-Commerce

[HTML5](#) · [CSS3](#) · [PHP](#) · [MySQL](#)

Elegant product catalogue with responsive layouts and PHP backend for dynamic content management.

[GitHub](#) [Demo](#)

Maham Clothing Store — E-Commerce

[React](#) · [JavaScript](#) · [Tailwind CSS](#) · [Vite](#)

Modern fashion e-commerce with cart persistence, wishlist, multi-step checkout, and responsive mobile-first design.

[GitHub](#) [Demo](#)

Brew & Bean Coffee House — Restaurant Site

[React](#) · [JavaScript](#) · [Tailwind CSS](#) · [Vite](#)

Interactive menu with category filtering, warm visual identity, and pixel-perfect responsive design.

[GitHub](#) [Demo](#)

ACADEMIC PROJECTS

Developed multiple C++ applications including a Weather Forecasting System, Disaster Evacuation System, Banking System, and Hotel Reservation System — demonstrating OOP, REST API integration, file handling, and algorithmic problem solving.

EXPERIENCE & LEADERSHIP

CodeAlpha

2025

- Developed object-oriented C++ applications solving practical programming problems.
- Improved software design and debugging skills through project-based development.

CAUSE Society (CUST)

2025

- Led volunteer initiatives and coordinated community events.
- Strengthened leadership, teamwork, and organisational skills.

AWS Student Builder

2025

- Selected as AWS Cloud Core Team Member.
- Expanded cloud computing knowledge through technical workshops.

Deloitte (Forage)

2025

- Completed technology consulting simulation focused on client needs and solution design.

CERTIFICATIONS

Chancellor's Honorship — Capital University (Spring 2025, Fall 2024)

Deloitte Australia Technology Simulation — Forage

Volunteering Head Certificate — CAUSE Society (CUST)

AWS Cloud Core Team Badge — AWS Student Builder Group (2026)

CodeAlpha C++ Internship — CodeAlpha

65 Hours Community Service — PGGA (2026)
